1982 AACE TRANSACTIONS
TABLE OF CONTENTS

SYMPOSIUM A — CAPITAL COST CONTROL

A-1	Application of Earned Value for Small Project Control: Panacea or Bane	S. Mukho J. Lisanti	A-1
A-2	Applications of Cost and Schedule Integration	William R. Crean Walter F. Adamczyk	A-2
A-3	A Critique of Integrated Cost/Schedule Systems	William M. Sancho, CCE	A-3
A-4	Forecasting Final Project Cost with Econometric Techniques	John K. Nabors	A-4
A-5	What Construction Management Seeks in Pictoral Documentation	R. Dennis Foster	A-5

SYMPOSIUM B — CAPITAL COST ESTIMATING

B-1	Costing Construction Labor Contracts	Robert M. Gasperow	B-1
B-3	Contingency Funds Evaluation	John R. Healy, CCE	B-3
B-4	The Importance of Cost Estimating in Value Engineering Studies	Morris M. Hochberg, CCE	B-4

SYMPOSIUM C — CONSTRUCTION COST MANAGEMENT

C-1	How Modular Plant Construction Offers Improved Cost and Schedule Controls	Leo B. G. Laser Anthony Starkey	C-1
C-2	Construction Variables in Action	Thomas W. Townley	C-2
C-3	Planning Risk Analysis in Offshore Projects: A Realistic Approach	Jean-Jacques Eldin Jean-Claude Boudry	C-3
C-4	Subcontract Administration and Control	James A. Bent, CCE	C-4

SYMPOSIUM D — MANAGEMENT SCIENCE

D-1	The Correction Curve	Marvin Gates, CCE Amerigo Scarpa	D-1
D-2	Organizational Credibility in Cost and Scheduling: The Critical Ingredient	Richard A. Mazzini, CCE	D-2
D-4	Applications of System Engineering Techniques (RAM$) Used in GCEP	J.G. Boylan R.C. DeLosier	D-4
D-5	A Systems Evaluation Model for Selecting Spent Nuclear Fuel Storage Concepts	F.D. Postula W.C. Finch R.P. Morissette	D-5

SYMPOSIUM E — PLANNING & SCHEDULING

E-1	Cost/Schedule Integration-Panacea or Poison?	Robert R. Cook, CCE	E-1
E-2	Developing a Conceptual Schedule for a 200 MW Atmospheric Fluidized Bed Combustion Plant	Ron DuBois	E-2
E-3	Scheduling Planning for Construction Projects	William A. Shunk	E-3
E-4	Construction Control Schedule	Derek Mason	E-4
E-5	Cost-Schedule Integration: Alternatives	Raad H. Hermes	E-5

SYMPOSIUM F — COMPUTER APPLICATIONS

F-2	Computer-Aided Design — A New Tool for the Cost Engineer?	Richard E. Westney	F-2
F-3	Computer Estimating Technology	John T. Kenny, CCE Robert S. Williamson	F-3
F-4	The Picture Language of Cost Engineering	John J. Lucas	F-4
F-5	The Impact of Computer-Aided Design Technology on Cost Engineering	Edward Zamojski Bernard E. Seals	F-5
F-6	Timesharing Basic Program for Hourly Construction Equipment Costs Computation	Dr. Calin Popescu Egidio Torre C.	F-6

SYMPOSIUM G — PRODUCTIVITY

G-1	Understanding the Word "Productivity": What it Means and What is Behind it	Marjatta Strandell, CCE	G-1
G-3	Improving Construction Productivity: The Case for Motivation	Dr. G. Douglas Jenkins Dr. Alexander Laufer	G-3
G-4	Using Quality Circles to Increase Productivity and Control Costs	Gary A. Schmitt Mike L. Mann	G-5

SYMPOSIUM H — OPERATING/MANUFACTURING COSTS

H-1	Cost Evaluation of Electric Distribution System Outages	Luis Raul Talamas Victor Gerez G. J. Rafael Ochoa	H-1
H-2	The Economics of Busing Coal Miners	Marvin R. Schneller	H-2
H-3	Scaling Operating Costs by Cost-Capacity Factors	Dr. James H. Black, CCE	H-3

SYMPOSIUM I — LIFE CYCLE COSTS

I-1	The Economics of Geothermal Power	L.V. Popat, CCE	I-1

SYMPOSIUM J — UTILITY COST MANAGEMENT

J-1	A Procedure for Evaluating the Retirement of Older Power Generating Plants	Ram L. Bashambu Ralph L. Yates	J-1
J-2	Another Perspective on Acid Rain	Aric D. Diericx M. Steven Pallo Jene L. Robinson	J-2
J-3	The Cost Impact of Three Mile Island on Nuclear Projects	R.P. Vigue	J-3
J-4	Decommissioning Nuclear Power Plants: How Much Will it Cost?	Roger E. Huebner	J-4
J-5	Co-Generation Economics — A Case for the HTGR	B.B. Sibold	J-5

SYMPOSIUM K — ENERGY COSTS

K-1	Will there be Gas or Gasoline from Coal in your Future?	William C. Chambers, CCE	K-1
K-2	Fossil Based Electricty Generation Economics	B.N. Murthy R.C. Maxwell A.N. Mann	K-2
K-3	Alternatives for the Distribution and Marketing of Synfuel Products	Thomas A. Sladek Gary L. Baughman	K-3
K-4	A Process for Economic Evaluation for In Situ Gasification for Texas Lignites	Henry Jiminez	K-4
K-5	Cost Engineering Concerns of the Emerging Shale Oil Industry	Donald E. Brossman	K-5

SYMPOSIUM L — MATERIAL CONTROL

L-1	The Role of the AACE in Materials Management	Remo J. Silvestrini	L-1
L-2	Materials Management: Key to Schedule and Productivity	David M. Harper	L-2
L-3	Role and Duties of the Planning Engineer in Material Management for Construction Projects	Dr. Calin Popescu	L-3

SYMPOSIUM M — ENGINEERING ECONOMICS

M-1	Sharing the Risks of the Cost of Inflation	Dr. George Stukhart	M-1
M-2	Cost Benefit Analysis in the Regulatory Field	David Rosoff	M-2
M-3	Enhancing Profitability for Unit Price Contracts	Robert H. Mayer, Jr. James E. Diekmann	M-3
M-4	Net Worth Accounting	Wilbur L. Mondie, CCE Charles E. Williamson	M-4

SYMPOSIUM N — EDUCATION

N-1	Undergraduate/Graduate Level Education for Cost Engineers	Zohar Herbsman	N-1

SYMPOSIUM O — CONFLICT MANAGEMENT

O-1	Conflict Management: "People One at a Time"	John M. Leonard	O-1
O-2	Language, Accountability and Control	F.C. Rochte	O-2
O-3	Application of Computer Based Information Systems: Behavioral Issues	Dr. Yash P. Gupta	O-3

SYMPOSIUM T — PROJECT MANAGEMENT

T-1	Large Project Dynamics	Jean-Claude Huot Kenneth G. Cooper	T-1
T-3	New Construction Management Emphasis Cuts Cost and Schedule	Wesley R. Querns, CCE	T-3
T-4	Cost Engineering - The Market "Leader"	Robert F. Ryba	T-4
T-5	The Advantages of Using Consultants vs. Direct Employees for Project Control Expertise	John B. Carney	T-5
